sock

...erase the smell of
the trash dump near
our house.

...a proper ball, so
my brother and I no
longer had to play
with an old sock
stuffed with rubbish.

I knew if I had the
magic pencil, I
would use it to draw
a better world, a
peaceful world.

I worked hard in school everyday. I wanted to be one of the top students in my class.

...a proper ball, so
my brothers and I
no longer had to
play with an old
sock stuffed with
rubbish.

I wrote about what it felt like to be scared to walk to school and how some of my friends had moved away because of the the threat they faced in our city.

...a proper ball, so
my brothers and I
no longer had to
play with an old
sock stuffed with
rubbish.

Louder because
people have joined me,
and together we make
a chorus, standing up
for what we believe.
